**EXHIBIT G Standard Ballot District Governor, First Vice District Governor
and Second Vice District Governor Elections**

Sample 1: Ballot where there are two (2) candidates.

Instructions: Clearly indicate your vote by placing an appropriate symbol¹ in the box to the right of the name of the candidate you are casting your vote for.

Position	Name	Yes	No
First Vice District Governor			
	Candidate A		
	Candidate B		
	Other		

Sample 2: Ballot where there is only one (1) candidate.

Instructions: Clearly indicate your vote by placing an appropriate symbol² in the box indicating a yes or no vote for the candidate.

Position	Name	Yes	No
District Governor			
	Candidate A		
	Other		

Sample #3: Ballot where there are three (3) or more candidates:

(Note: there are different options when there is more than one (1) candidate. You may have the voter indicate their selection next to the candidate they wish to vote for. If no candidate receives a majority of the votes, the candidate with the lowest number of votes is dropped off the ballot and another vote is taken (The ballot would look like Sample #1 above). This process would continue until a candidate receives the required number of votes. As most districts do not have the time to conduct such a lengthy process, the option of Preferential Voting allows the voter to complete one (1) ballot. Following is an example of a Preferential Voting Ballot:

Instructions. Indicate your preference by clearly marking next to each candidate's name a number (1, 2, 3 or 4) indicating your preference in the order in which you would elect the candidate (i.e., 1—for highest preference, 2 – next preference, etc.).

Position	Name	Preference/ Rank
Second Vice District Governor		
	Candidate A	4
	Candidate B	2
	Candidate C	1
	Candidate D	3

Rules for Preferential Voting:

1. On the preferential ballot - for each office to be filled the voter is asked to indicate the order in which they prefer all the candidates, placing the numeral 1 beside their first preference, the numeral 2 beside their second preference, and so on for every possible choice.
2. In counting the votes for a given office, the ballots are arranged in piles according to the indicated first preferences – one (1) pile for each candidate.
3. The number of ballots in each pile is then recorded for the tellers' report. These piles remain identified with the names of the same candidates throughout the counting procedure until all but one (1) is eliminated as described below.
4. If more than half of the ballots show one (1) candidate indicated as first choice, that choice has a majority in the ordinary sense and the candidate is elected. But if there is no such majority, candidates are eliminated one (1) by one (1), beginning with the least popular, until one (1) prevails, as follows:
 - a. The ballots in the thinnest pile – that is, those containing the name designated as first choice by the fewest number of voters – are redistributed into the other piles according to the names marked as second choice on these ballots.
 - b. The number of ballots in each remaining pile after this distribution is again recorded.
 - c. If more than half of the ballots are now in one (1) pile, that candidate is elected. If not, the next least popular candidate is similarly eliminated, by taking the thinnest remaining pile and redistributing its ballots according to their second choices into the other piles, except that, if the name eliminated in the last distribution is indicated as second choice on a ballot, that ballot is placed accordingly to its third choice.
 - d. The number of ballots in each existing pile is recorded, and if necessary, the process is repeated – by redistributing each time the ballots in the thinnest remaining pile, according to the marked second choice or most-preferred choice among those not yet eliminated – until one (1) pile contains more than half of the ballots, the result being thereby determined.
 - e. The tellers' report consists of a table listing all candidates, with the number of ballots that were in each pile after each successive distribution.
5. If a ballot having one (1) or more names not marked with any numeral comes up for placement at any stage of the counting and all of its marked names have been eliminated, it should not be placed in any pile, but should be set aside.
6. If at any point two (2) or more candidates are tied for the least popular position, the ballots in their piles are redistributed in a single step, all of the tied names being treated as eliminated.
7. In the event of a tie in the winning position – which would imply that the elimination process is continued until the ballots are reduced to two (2) or more equal piles – the election should be resolved in favor of the candidate that was strongest in terms of first choice (by referring to the record of the first distribution).
